

Role of Oil Palm in Poverty Alleviation

Zulkifli Alamsyah

Agribusiness Department Faculty of Agriculture University of Jambi - Indonesia zalamsyah@unja,ac,id

Presented in the Twentyfirst Session of the Conference of the Parties (COP21). Paris, Dec 3, 2015. Indonesia Pavilion – Hall 2B

Outline:

Introduction

- Overview of Indonesian Oil Palm Plantation
- The economic of Oil Palm Sector
- The Role of Oil Palm in Poverty Alleviation
- Conclusion

Introduction

CPO in the Oils & Fats Market

Comparison of Oil Palm Household Income and Poverty Line (Million IDR / yr)

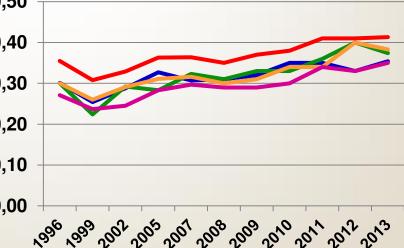

Source: PASPI (2015)

Oil Palm Plantation Reduce number of poor people in rural area and improve income distribution

Gini Ratio in 4 Major Oil Palm Producing Province

Source: Statistics Indonesia (2015)

Conclusion

Conclusion

Oil palm plantations play an important role in Indonesian economic development :

- 1. Source of income through foreign exchange earnings
- 2. Contribute highly significant to the growth of output, employment and added value of other economic sectors.
- 3. Boost economic growth in rural areas through increased employment, improved infrastructure, and create new sources of economic growth.
- 4. Increase farmers' income and reduce poverty.
